### DEAFNESS CANNOT BE CURED

by local applications, as they can not reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to normal condition, hearing will be destroyed forever; fine cases out ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

### The Booster

"When the Creator had made all good things, there was still some dirty work to do. So he made the beasts and reptiles and poisonous insects, and when He had finished, He had some scraps that were too bad to put into the Rattlesnake, the Hyena, the Scorpion and the Skunk. So He put all this together, covered it with Jealousy, marked it with a yellow streak, and called it a 'KNOCK-ER'."

"This product was so fearful to contemplate that He had to make something to counteract it. So He took a sunbeam and put it in heart of a child, the brain of a man, wrapped these in civic pride covered it with brotherly love, gave it a mask of velvet, and a grasp of steel, and called it a 'BOOSTER'; made him a lover of fields and flowers and many sports, a believer in equality and justice, and ever since these two were, mortal man has had the privilege of choosing his associates."

Sincerely,  
**CHAS. BOOSTER NORTON**

## POLITICAL AGITATORS

POLITICIANS WHO CAPITALIZE  
STRIKE A MENACE TO  
GOVERNMENT.

Neglect of Agricultural and Industrial  
Opportunities a National Crime.

By Peter Radford.

There never was a time in the his-  
tory of this nation when we needed  
statesmen more or agitators less than  
at the present moment. The oppor-  
tunities now afforded us on land and  
sea demand the best there is in state-  
craft and the possibilities that are con-  
fronting us call for national issues  
that unite the people, build industry  
and expand trade. The agricultural  
and industrial development of this  
nation has suffered severely at the  
hands of agitators who have sent  
torpedoes crashing into the port side  
of business and whose neglect of the  
interests of the farmer makes them  
little less than political criminals. We  
want no more of these evil spirits to  
predominate in government. Too long  
their hysterical cry has sent a shiver  
down the spinal column of industry.  
Too long have the political agitators  
capitalized strife, pillaged progress  
and murdered opportunity. An indus-  
trial corpse is not a desirable thing,  
a crippled business an achievement or  
neglect an accomplishment about  
which any representative of the gov-  
ernment has a right to boast.

Issues that Breed Agitators Should be  
Eliminated.

The political agitator must be elim-  
inated from public life before thought-  
ful consideration can be given to a  
constructive program in government.  
The liquor question is the most pro-  
lific breeding ground for agitators and  
whether pro or anti, the hatch is  
equally as undesirable. This article  
is in no sense a discussion of the li-  
quor question but deals solely and by  
way of illustration with the political  
products of that issue. Other sub-  
jects will be dealt with in the order  
of their importance.

In the history of our government  
the liquor issue has never produced  
a constructive statesman worth men-  
tioning and it never will. It has sent  
more freaks to Congress, Lilliputians  
to the Senate and incompetents to  
office than any other political issue  
under the sun.

The recent experience of the En-  
glish Parliament which lashed itself  
into a fury over the liquor question  
has a lesson that it is well for the  
farmers of this nation to observe; for  
the subject in some form or other is  
constantly before the public for sol-  
ution and oftentimes to the exclusion of  
more important problems to the Amer-  
ican plowman.

Too Many Political Drunkards.

Lloyd-George, the Prohibition leader  
of Europe who led the prohibition fight  
in England, has declared that he will  
never again take a drink of liquor; and  
there are many American politi-  
cians—pro and anti—who would read-  
ily pour a service by climbing  
on the water wagon or signing a pledge  
of political temperance. Too often  
our legislative halls are turned in-  
to political bar-rooms and many of the  
members become intoxicated on "quo  
discussions. We have too many politi-  
cal drunkards—pro and anti—in our  
public affairs. No one who is a slave  
to the political liquor habit is qual-  
ified to deal with the business  
affairs of government as the sober  
and industrious. We have few  
public men in this day who are strong  
enough to resist the temptation of a  
strong drink politically and when the  
demon Rum once becomes firmly en-  
trenched in the mind of a politician  
he is less capable of meeting the de-  
mands for constructive statesmanship  
now confronting this nation.

We have in this country too man-  
y red-nosed politicians—both pro and  
anti. A candidate with political del-  
irium tremens, a preacher with politi-  
cal snakes in his boots and an agitator  
drunk on the liquor question are the  
saddest sights in civilization and they  
should all be forced to take the politi-  
cal Keeley Cure.

It is far more important in govern-  
ment to make it easier for those who  
toil to eat than to make it more dif-  
ficult for a few topers to drink. There  
is not one person in one hundred of  
our rural population that ever touches  
liquor but we all eat three times a  
day.

### THE LAYMAN'S DUTY

There never was a time when  
preachers and politicians formed an  
unholy alliance that civilization did  
not shriek out and Christianity cry  
aloud. Since the beginning of gov-  
ernment, politicians have sought to  
decoy the ministry into the meshes of  
politics and make them carry banners  
in political processions. They have  
taken the ministry to the mountain-  
top of power and offered to make them  
monarch of all they surveyed, and  
while most of them have said, "Get  
these behind me Satan," a few have  
fallen with a crash that has shaken  
every pulpit in Christendom.

NEURALGIA PAINS SPOARD

You don't need to suffer those  
agonizing nerve pains in the face,  
head, arm, shoulders, chest and  
back. Just apply a few drops of  
soothing Shoen's Liniment; lie

get such relief and comfort! Life  
and the world will look brighter.

## BANKERS URGED TO CO-OPERATE WITH FARMERS

SOUL MATERIAL HAS ENTERED  
THE BANK VAULTS OF  
THE NATION.

The Bank a Financial Power House  
to the Community.

By Peter Radford.

One of the greatest opportunities in  
the business life of the nation lies  
in practical co-operation of the coun-  
try banks with the farmer in building  
agriculture and the adventure is laden  
with greater possibilities than any  
forward movement now before the  
American public.

A few bankers have loaned money  
to farmers at a low rate of interest,  
and oftentimes without compensation, to  
buy blooded, livestock, build silos,  
fertilize the land, secure better seed  
hold their products for a better mar-  
ket price, etc. The banker in con-  
tributing toward improving the grade  
of livestock; the quality of the seed  
and the fertility of the soil, plants in  
the agricultural life of the community  
a fountain of profit, that, like Tenny-  
son's brook, runs on and on forever.

Community Progress a Bank Asset.  
The time was when money loaned  
in such a basis would severely test  
the sanity of the banker; such trans-  
actions would pain the directors like  
a blow in the face. A cashier who  
would dare to cast bread upon waters  
that did not return buttered side up  
in time for annual dividends would  
have to give way to a more capable  
man. This does not necessarily mean  
that the bankers are getting any bet-  
ter or that the milk of human kindness  
is being imbibed more freely by our fin-  
anciers. It indicates that the bankers are  
getting wiser, becoming more able fin-  
anciers and the banking industry more  
competent. The vision of the builder is  
moving out of the spirit of the pawn  
broker. A light has been turned on  
a new world of investment and no  
surser ever received as large returns  
on the investment as those progres-  
sive bankers, who made loans to  
lift industry. The bankers have  
always been liberal city builders, but  
they are now building agriculture.

A Dollar With a Soul.

It is refreshing in this strenuous  
commercial life to find so many dol-  
lars with souls. When a dollar is ap-  
proached to perform a task that does  
not directly yield the highest rate of  
interest, we usually hear the rustle  
of the eagle's wings as it soars up-  
ward; when a dollar is requested to  
stern at the option of the borrower,  
it usually appeals to the Goddess of  
Liberty for its contractual rights; when  
a dollar is asked to expand in vol-  
ume to suit the requirements of in-  
dustry, it usually takes solemnly of  
its redeemer, but soul material has  
entered into the vaults of our banks  
and rate, time and volume have a  
new basis of reckoning in so far as  
the ability of some of the bankers  
permit them to co-operate in promot-  
ing the business of farming.

God Almighty's Noblemen.

These bankers are God Almighty's  
noblemen. Heaven lent earth the  
spirit of these men and the angels  
will help them roll in place the  
cornerstones of empire. They are  
not philanthropists; they are wise  
bankers. The spirit of the builder  
has given them a new vision, and  
wisdom has visited upon them busi-  
ness foresight.

The cackle of the hen, the low  
of kine and the rustle of growing  
crops echo in every bank vault in the  
nation and the shrewd banker knows  
that he can more effectively increase  
his deposits by putting blue blood in  
the veins of livestock; quality in  
the yield of the soil and value into  
agricultural products, than by busi-  
ness handshakes, overdrafts and  
gaudy calendars.

Taking the community into part-  
nership with the bank, opening up a  
ledger account with progress, making  
thrift and enterprise stockholders and  
the prosperity of the country an  
asset to the bank, put behind it  
stability far more desirable than a  
letterhead bearing the names of all  
the distinguished citizens of the com-  
munity. The bank is the financial  
power house of the community and  
blessed is the locality that has an  
up-to-date banker.

### POLITICAL PRAYER MEETINGS

It is a sad day for Christianity when  
the church bells call the communicants  
together for a political prayer meet-  
ing. Such gatherings mark the high  
tide of religious political fanaticism,  
put bitterness into the lives of men;  
fan the flames of class hatred and de-  
stroy Christian influence in the com-  
munity. The spirit actuating such  
meetings is anarchistic, un-Christlike  
and dangerous to both church and  
state.

The success of the nation is in the  
hands of the farmer.

Work for the best and the best will  
rise up and reward you.

## THE GRIFFIN CASE

(From Somerset Herald)

Kennedy and his friends for the past 18 months have been slip-  
ping around and trying to poison the minds of good people against  
Judge Bethurum on account of the filing of the Griffin case about six  
years ago. Judge Bethurum in his speeches took up the matter and  
explained to the people why this case was filed. It was generally  
known in Somerset at the time, and no man ever complained to Judge  
Bethurum regarding the matter. The reasons are set forth in the  
order filing the case. It satisfies any fair mind, but Kennedy is com-  
plaining because he wants to be Judge, and he thinks that he can fool  
a few people into voting for him, a man used to from the standpoint  
of either ability or temperament, for the high office of Judge. It is  
useless for the Herald to extend this comment, as the record is the  
best evidence and the record shows that the Griffin case was filed  
with leave for good reasons which are set forth in the following state-  
ments and affidavits:

Oct. 25th, 1909.

Hon. B. J. Bethurum,  
Attorney for the Commonwealth, 28th Judicial District.

Sir:  
In the matter of Commonwealth of Kentucky vs. H. L. Griffin,  
charged with manslaughter, I desire to say that I am the widow of  
Oscar Bowen, deceased. From my investigation and from what I  
am told and what the witnesses say it is my opinion that the killing  
of my husband was accidental and that Griffin had no intention of do-  
ing him any injury, and I have no desire to have him prosecuted, and  
ask you as attorney for the Commonwealth to dismiss the case against  
him.  
Respectfully,  
Mrs. Oscar Bowen.

Signed in the presence of Chas. Jacobs, S. S. Morrow and W. B.  
Morrow.  
Subscribed and sworn to before me by Mrs. Oscar Bowen, Nov.  
27th, 1909.  
W. Boyd Morrow, N. P. P. C.

Oct. 25th, 1909.

Hon. B. J. Bethurum,  
Commonwealth's Attorney, 28th Judicial District of Ky.

Sir:  
In the matter of Commonwealth of Kentucky against H. L. Griffin  
I desire to state that I am the father-in-law of Oscar Bowen whom  
the defendant is charged with killing. I have fully investigated this  
case and the facts in relation thereto and am convinced that the shot  
which killed Bowen was not fired for the purpose of killing him but  
was accidental. Under these circumstances I do not think he  
should be prosecuted and ask that the case be dismissed.  
Respectfully,  
J. C. Camden.

Signed in the presence of Chas. Jacobs, W. B. Morrow and S. S.  
Morrow.  
Subscribed and sworn to before me by J. C. Camden, Nov. 26th,  
1909.  
W. Boyd Morrow, N. P.

Chicago, Ill., Oct. 27, 1909.

Mr. B. J. Bethurum,  
Commonwealth's Attorney,  
Somerset, Ky.

Dear Sir:  
In reclaim filed against the Company under policy issued to Oscar  
Bowen, deceased, I beg to state the same was an accident policy,  
providing indemnity for the result of purely accidental injuries. It  
was my duty to investigate the claim, which I did, and as there ap-  
peared to be a liability under the contract and the facts in the case,  
the claim was approved and paid.  
Yours truly,  
Continental Casualty Co.  
L. E. Brown, Supt.

Somerset, Ky., Nov. 3rd, 1909.

Hon. B. J. Bethurum,  
Commonwealth's Attorney,

Dear Sir:  
In the matter of the Commonwealth of Kentucky vs. H. L. Griffin,  
charged with manslaughter, I desire to make the following state-  
ment:

I was the attorney of Mrs. Lis Bowen, the administrator of Oscar  
Bowen, deceased, who was killed by H. L. Griffin, and Mrs. Bowen  
was also the beneficiary of an accident policy made in her favor by  
her husband in the Continental Casualty Co. After the death of  
Bowen, as the attorney of Mrs. Bowen, I handled the settlement of the  
claim was refused by the company upon the grounds that the death  
of Bowen was not the result of an accident but that he was purposely  
killed by Griffin, and therefore an accident policy would not permit a  
recovery. At the instance of Mrs. Bowen and her father, John Cam-  
den, I investigated the matter; took the statement of various eye wit-  
nesses and presented such proof to the said company as to convince  
them that Bowen's death was the result of an accident instead of be-  
ing the result of crime. For this reason they adjusted the claim upon  
the basis of an accidental killing.

Very Respt,  
Edwin P. Morrow, Atty. At Law.

The affiant, Lewis Camden, states that he was an eye witness to  
the shooting and killing of his brother-in-law Oscar Bowen, by H. L.  
Griffin, and he says he was of the opinion at the time that said  
shooting and killing was the result of an accident and he is still of  
that opinion. He says Griffin and Bowen were the best of friends,  
and had never had any trouble before, and it was largely what he said  
to his sister, Mrs. Bowen, and his father John Camden, that caused  
them to put on foot the investigation that convinced them that said  
killing was due to an accident.

Lewis Camden,

Subscribed and sworn to before me by Lewis Camden, this 16th  
day of November 1914.  
Julius Samuels, Notary Public Hamilton Co.

During the time that I was serving as County Attorney, H. L.  
Griffin shot and killed a man by the name of Oscar Bowen here in

Somerset. The Grand Jury following the killing indicted Griffin for  
voluntary manslaughter. Judge Bethurum was Commonwealth's At-  
torney at the time. After the indictment was returned, Judge Be-  
thurum and I were both anxious to try the case. The case continued  
several times on account of the absence of material witnesses for the  
Commonwealth, two of whom had left the State. Finally the wife and  
father in law of the deceased came to Judge Bethurum and myself  
and asked that the case be dismissed and stated that they had made a  
thorough investigation of the case and found that the killing was the  
result of an accident and that the wife of the deceased had taken the  
statements of the eye witnesses to the killing and had convinced an  
accident insurance company that the killing was accidental and that  
the company had paid the accident policy which the deceased had  
taken in said company. I personally know that Judge Bethurum as  
Commonwealth's Attorney used every effort at his command to have  
his case tried and that he refused to dismiss this case under any cir-  
cumstances, but after consulting with me both agreed that under  
circumstances the best thing that could be done was to file the case  
with leave to reinstate, which was done. I most heartily endorse the  
action of Judge Bethurum in this because, in my judgement, it  
would have been impossible to have secured a conviction under all  
the circumstances surrounding the case.

Somerset, Ky., May 13, 1915.

J. W. Colyar.

The Herald has in its possession more affidavits of eye witnesses  
and statements of other parties, but lack of space forbids their publi-  
cation at this time. The above should satisfy any unbiased mind that  
the case was filed for good and sufficient reasons and that the At-  
torney for the Commonwealth could do nothing else. Griffin was in-  
dicted for manslaughter only, and the Grand Jury refused to indict  
him for wilful murder, which showed that the Grand Jury had some  
doubts of his guilt, when they only heard one side of the case. The  
widow and her father asked that the case be dismissed, but the At-  
torney filed it with leave, and refused to dismiss it. What more could  
he have done? Any one with a particle of brains knows that after the  
widow collected that accident policy there was no chance to convict  
the accused.

This is the only case of this sort that has been disposed of with-  
out a trial since Judge Bethurum has had anything to do with the  
courts of this district. Hundreds of felony cases from murder down  
have been returned by the Grand Juries, and yet Kennedy is unable  
to find where there has been a single one filed or dismissed except  
the Griffin case. He gives Judge Bethurum no credit for the good  
work that he has done along the lines of law enforcement but under-  
takes to discredit him for what he did in the Griffin case while he was  
Commonwealth's Attorney, and the above record shows how little  
there is in this charge. Come along with something else, Kennedy,  
and then watch Judge Bethurum smash you. He has met you upon  
every thing you have yet started, and shown the people that you are  
a base deceiver.

## The Editor and You

Did you ever stop to consider the  
different treatment accorded you  
by the editor and that you accord  
him?

If he should knock your busi-  
ness thru the columns of his paper  
you would nurse a grudge against  
him to your grave, and as time  
rolled by it would grow in size un-  
til you would find it as hard to  
hold as a baby elephant soaked in  
grease.

Now, is such the case with the  
editor? He hears that you have  
ridiculed and run down his paper;  
that you have told people on the  
streets that it could not come to  
your home, and then you tell him  
that your daughter has graduated.  
He praises her to the sky, says  
she is the joy and pride of the  
community, the smartest thing  
on earth and that her parents have  
just cause to be proud of her.

You can mark your paper "re-  
fused"—stick it back into the  
postoffice and boast of it to your  
associates, humiliating him, if you  
can, but if your son gets into  
trouble, or your daughter misbe-  
haves in church or elsewhere,  
rather than hurt your feelings he  
suppresses everything connected  
with the unfortunate case at the  
risk of being called a numskull  
who can never get hold of the  
news.

He hears of your denunciation,  
feels the sting of it all, and some-  
times suffers financial loss as a  
consequence, but he never uses  
the columns of his paper to "get  
even."

On the other hand if you have  
anything to boast, he will boost it  
for you; if honors come your way  
he takes local pride in heralding  
it abroad, and if death invades  
your home he will go to the bottom  
of his heart for tender expressions  
of sympathy and condolence for  
those left to mourn.

You might sometimes think of  
these things while endeavoring by  
words or deeds to belittle the edi-  
tor and his usefulness in the com-  
munity. You might put a higher

polish in your Christianity by fol-  
lowing the editor's example.—

Senator James Behind the President.

In writing a story of the political effect of Mr. Bryan's resignation the Washington Post this week has the following to say of Kentucky's Senior Senator: "Whether the resignation of Mr. Bryan results in a party split or not, it cannot be gainsaid that it is forcing a number of distinguished Democrats to declare their choice of leadership as between the President and Mr. Bryan and that many of those who long have stood as the personal followers of the great commoner have cast their lot definitely with the President."

Most prominent in this class is Senator Ollie M. James, Kentucky who for years has been a devoted follower of Williams Jennings Bryan, and who, as chairman of the Baltimore convention, worked hand in hand with Mr. Bryan to compel that convention to do his bidding. Mr. James has declared that much as he loves Mr. Bryan, his duty is clear and that he stands with the President.

With just two days left in which candidates may qualify for entrance in the August primary, the State and district races are rapidly taking shape. This applies to candidates whose territory embraces more than one county, those being required to qualify as candidates with the Secretary of State at Frankfort forty days before the primary. Those candidates whose territory is confined to one county, or any part of it, qualify with the County Clerk, and they have ten days additional time in which to file their nominating papers. With the August primary only about six weeks of extra pressure is being put on by the candidates to arouse interest in their races. With the general apathy existing it appears to be an uphill job. This is especially noticeable in the races for the minor State officers, in which the voters up to this time have shown only passing interest.

Tanlac Plant Made Larger

Unprecedented Demand for Remedy Necessitates Increased Capacity.

Tanlac, the premier preparation sold in Mt. Vernon by Chas. C. Davis and can also be obtained at the Central Drug Co's. store in Livingston or John Robins' drug store in Brodhead, Ky., and which is being so widely discussed in this State, is being used today by more than 150,000 Kentuckians, thousands of who have testified to the benefits they have gained by its use.

Every walk of life is represented in the small army of Kentuckians who have been benefited by Tanlac and who have testified to its merits as a medicine of rare value.

The Taylor Isaacs Drug Company, Louisville, has sold more than 30,000 bottles of Tanlac in 90 days. The success of Tanlac in Louisville is typical of the cordial reception in preparation is receiving in large cities and rural districts where it has been introduced. In the last six months the business has grown to enormous proportions—so large, in fact that it recently became necessary to increase the capacity of the Tanlac plant in Dayton, Ohio, which had been producing from 8,000 to 10,000 bottles of the preparation daily.

The unusual, and heretofore, unused formula composing Tanlac, in a large measure, responsible for the medicine's popularity and success. The ingredients, which are gathered from many sections of the earth, are of known curative value.

One ingredient never before has been used in a proprietary medicine. This probably contributes more to the success of Tanlac than any other one thing. Its curative power is conceded to be most effective and rapid. This ingredient was discovered on an island in the Pacific, west of Mexico.

New Requirements for Checking Trunks

The valuation of trunks carried as baggage on passenger trains must hereafter be declared under a new joint tariff that became effective last week on most railroads. For trunks whose valuation is more than \$100, a rate of ten cents per \$100 will be charged in excess of the first \$100.

The new tariff is brought about as a consequence of the Cummins law, which makes railroads liable for losses in full. Heretofore \$100 has been the limit of liability. Baggage of the valuation of more than \$250 will not be carried in baggage cars.
